Bilbao

Bilbao is the heart of a metropolis where more than a million people live. It is the centre of the economic-social development and the main factor of the modernisation of the Bay of Biscay. The great architectural and infrastructure projects have been the driving force of the urban and economic regeneration of the city. The Bilbao Guggenheim Museum, the Euskalduna Conference and Music Centre, Norman Foster's Underground, Calatrava's airport, the towers designed by the architects Arata Isozaki and César Pelli... are all examples of the dynamism that exists in Bilbao.

The city is situated in the area of Bizkaia and is surrounded by a fertile landscape with forests, mountains, beaches and steep coasts. All this makes Bilbao a privileged destination for visitors. The modern transport and network of roads run to locations nearby such as the other capitals of the Basque Country - Vitoria and San Sebastián.

Bizkaia

It is located in the Basque Country in northern Spain. Its capital, Bilbao, has become a symbol of modern architecture thanks to its avant-garde buildings such as the Guggenheim Bilbao Museum. Bizkaia is the most densely populated province in the Basque Country, and has both cities and rural areas which conserve the full flavour of country living. There are also towns in the interior which are well worth visiting, such as Durango, Elorrio, Otxandio, Orduña and Balsameda. Its 150 kilometres of coastline have everything from beaches with golden sand, to cliffs and charming fishing villages.

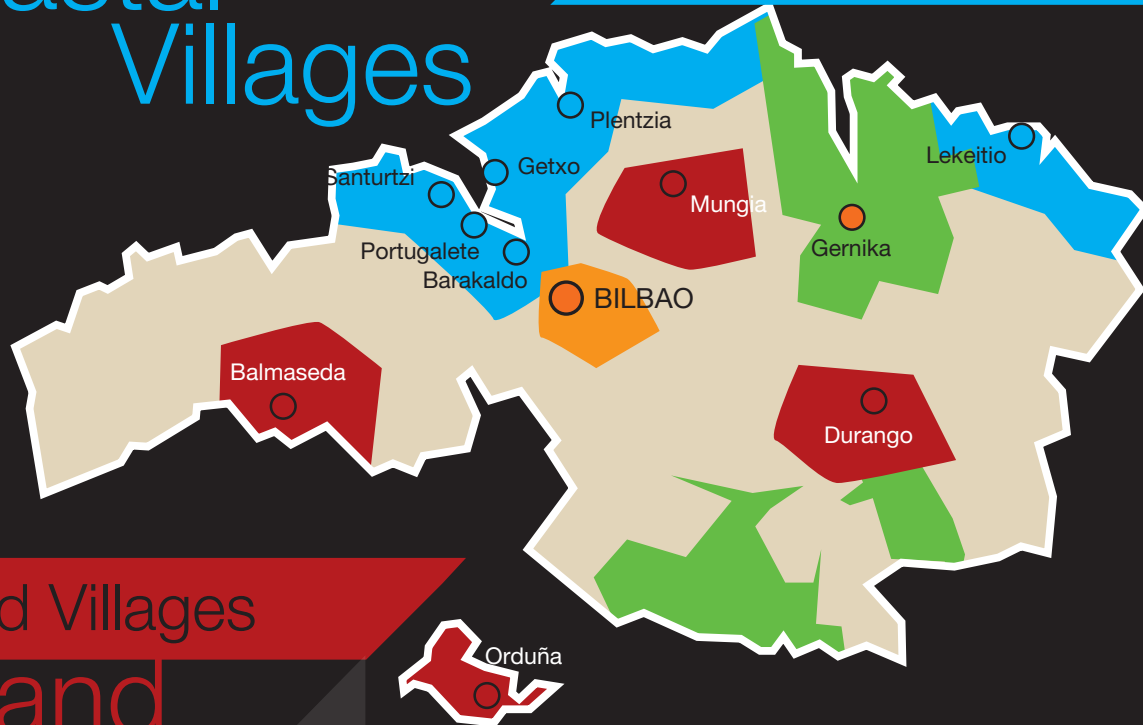

The coast is also where visitors will find the Hanging Bridge of Bizkaia, awarded the World Heritage designation by the UNESCO, as well as idyllic spaces such as San Juan de Gaztelugatxe and the Urdaibai Biosphere Reserve. The local gastronomy is strongly influenced by its proximity to the sea. Particular delicacies include the "pintxos" (delicious miniature dishes) and recipes such as cod à la vizcaína or grilled butterfly sea bream.
